Customer Reviews

We own a Termite Inspection and Pest Control company and my husband was delighted when I presented him with two of these handbooks...one for him and one for our pest control technician. Lots of great information and colored pictures, too!

I bought this because we live in an old house with pests. It is somewhat useful, but obviously geared toward professionals. Don't buy for home use.

I was expecting better pictures. Only a limited number of color pictures for some insects.

Easy to understand, great helpful info for techs.

Great Books and Fast Delivery!!!
