2012 Wood Design Package - Including The National Design Specification® For Wood Construction (NDS®) & NDS Supplement: Design Values For Wood Construction (4 Volumes Set)

Synopsis

This four volume set includes the code-recognized National Design Specification (NDS) for Wood Construction (2012 Edition) with Commentary and Supplement: Design Values for Wood Construction. The 2012 Wood Design Package brings together all required elements for design of wood structures in one comprehensive document. It includes design information and examples for wind and seismic conditions, sawn lumber, structural glued laminated timber, structural-use panels, shear walls and diaphragms, poles and piles, I-joists, structural composite lumber, structural connections (nails, bolts, screws), metal plate connected wood trusses, and pre-engineered metal connectors. The Wood Design Package also includes: 2008 Special Design Provisions for Wind and Seismic (SDPWS) with Commentary and ASD/LRFD Manual for Engineered Wood Construction.

Customer Reviews

Received it in a timely manner. However, you would think that this package would have come with the Addendum for the supplement to the NDS. This addendum came out in March 2013. Table 4B Reference Design Values for Visually Graded Southern Pine Dimension Lumber now has completely different values than what is in the 2012 and previous versions. If you don't have the addendum, you can find it here: [...]

If you are designing using wood, then you have to have the 2012 NDS.

Good collection set of references to use for work and general. Would like it more with a box like it used to have them in.

Excellent publication. Useful and clear specification, commentary and references.

Yep!, Just what I ordered, just what I needed.
