Customer Reviews

WORST Native American cookbook EVER. I'm so glad I got this one for free. Change the title to American faves. No frybread recipes. No Indian tacos. No bullets. (yes.. that is a name of a Native American stew).. though the spelling is boulette or something like that. No jerky recipes. No indian corn recipes. No wild rice recipes. The author owes all Native Americans an apology.

When I saw Native American, I was thinking American Indian. A few recipes can fall into that category, but this is just a short cookbook. Nothing special. Title is misleading, should be just American favorites.....

While looking for an American recipe book I accidentally saw this book. I got curious about the taste of Native American favorites. Yes, I tasted already some Native American dishes and they are awesome and somehow same taste of this new age American dishes. When I started reading this book different amazing recipes and I don't really know if it is really Native American recipes but I totally enjoyed it. I am thinking that I will try these recipes when I got enough time and I hope I don't fail trying this.

I love to eat and to cook different foods. Native American dishes have been on my mind for along time. I have always wanted to try the authentic flavors of America. This book provides about 50 delicious Native American recipes. Fish pie and glazed chicken are my favorites. Yummy yummy..

Old culinary traditions in recipes along with modern preferences of Americans are in one book, just the most favorite and delicious. I got several recipes for my family cooking especially during weekends, not so hard to prepare and really delicious. We are pretty laid back about our diet and just go for healthy , nutritious and delicious options. This book gives plenty recipes for such meals. We love it!

Accidentally downloaded this because I thought it was free, but apparently it was only a "special" Kindle Membership kind of "free" for a type of membership that I did not have. Lesson learned.
