A Victorian Dollhouse

Synopsis

Open all four sections, tie back the two blue ribbons, and a fully constructed eight-room dollhouse emerges from between the two slim covers. An affordable taste of the Victorian era, A Victorian Dollhouse is perfect for anyone who cherishes Victorian ephemera.

Customer Reviews

I got lucky and found this book in the children's section of my local large book retailer. (It was in the pop-up book section.) You tie the front and back cover together and you get a paper 3d dollhouse. This is a GREAT gift for a young niece or neighbor who doesn't have a dollhouse or who is crazy about them! I gave a book very similar to this years ago to my girl and she loved it. She still has it to this day. My only complaint about the book is that it doesn't include any paper dolls with it. You might want to purchase a set of Victorian paper dolls that fit the scale of this dollhouse before you give it to the special little girl in your life.

This is soooooo cute. I am always awed by the creativity of artists. It makes you wish you could live in this beautiful home. Absolutely eye candy for the senses!

I had one of these as a kid. I was excited to find it. There were just a few pieces I had to glue together with the hot glue gun. One small piece that is torn out....I am thinking it was a toy box in the children's bedroom. Very satisfied with my purchase. The shipment was slow but that is to be expected with media mail. Thanks so much! My girls are fascinated with this book too. It definitely has found a forever home and will probably be passed down through each of them as long as it

holds up.

After returning from a visit to Dublin's wonderful doll house museum, we purchased this book for our 10 year old daughter. We were a bit nervous that this book may be too young for her, but found it much to the contrary, she absolutely loves the book and has enjoyed playing with it for hours.

I bought this book for my 5 year old daughter. We travel often, and it is wonderful for long airport delays or downtime in the hotel room. The book is very sturdy and has wonderful details inside. The bonus-it allows her to use her imagination! Very easy to pack.

Very nice 3-D dollhouse with a Victorian flair. Well-designed and sturdy. I got a good price on it as well, and it's something to take out and have fun with 12 months a year. I may decorate it at holiday time and use it for a centerpiece. SO adorable and educational...good for quiet playing and for adults like me who never grew up and away from dollhouses, dolls and fun.

This book is AWESOME! I got this from my Aunt when I was in Elementary school and I still have it and I'm vastly approaching my 10 year high school reunion. It's so fun opening the doors, closets, cabinets and more. Unfortunately Pumba (from Lion King) ripped the chandelier off of the ceiling in the dining room. This book is one of my secret treasures.

I was very excited to get this in the mail, but when I received it, I found that one floor was torn off of the wall on one side. On the other side, half of the floor was torn off completely. This is not reparable, and because of it, the house cannot properly stand. A door is torn, two doors are bent, the bathroom vanity is broken, a wall is scraped up, and a table is broken. Also, there are no people. I really wish that I had not spent the money on this.
